[Trigger] If Price Hits... Then...

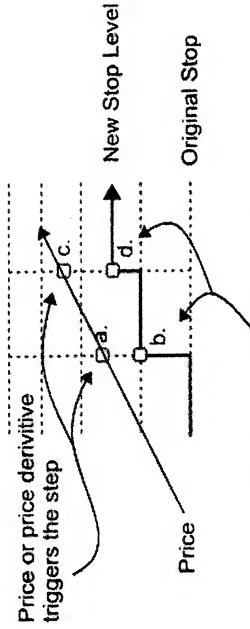

[Action] Move Price To or
Define Lower Dynamic Range

Figure-19

Semi Dynamic Step Trailers

2000

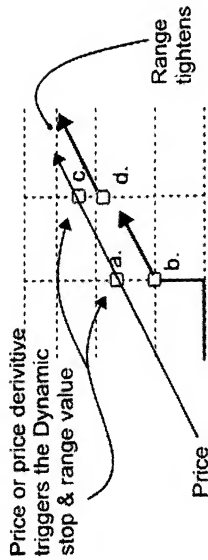

Global Stop is moved up in response to price action or price action derivatives. The move up is step wise.

Figure-20

2100

Full Dynamic Range Trailers

Global Stop is moved up dynamically in response to price action. Successive dynamic triggers serve to tighten the dynamic range
